

WRITING ASSESSMENT
Write your final composition here.

G 16a

I was walking through the desert, and I tripped over something. I got up and said, "What is that?" A carpet was under my feet. I looked up and saw I was getting higher. It was a flying carpet! "Wow", I said. The flying carpet was going real fast. I tried to slow the flying carpet down, but slowing the flying carpet down wasn't working. Then I pulled all four ends together and it sent me flying! Everything went dark.

When I woke up I could see the carpet over me. The flying carpet picked me up and went on again. While I was flying on the flying carpet I thought to myself, I could try telling the flying carpet to slow down. Next, I tried to tell the flying carpet to go to that village. That carpet followed my commands and went that way!

I was walking in my friend's dinner and told him to come outside and look at this flying carpet. My friend, John, said why? I said, "Just come on." John came and saw the flying carpet. John was amazed. John said, "Wow, this is unbelievable." I said, "Yea, wait till you see how fast the flying carpet goes." John got on and I followed John on the flying carpet. I told the flying carpet to go. The flying carpet took off. The flying carpet went fast! John asked how fast it goes? I said, "I don't know. I wonder how fast this carpet really goes."

At one of my other friend's house we asked him to take how fast the flying carpet goes? "Flying carpet," Bill my other friend said. "Yea, a flying carpet," I said. Bill

told us he would take, how fast it goes. After that he got his speed gun ready. We told the flying carpet to go as fast as you can, and stop at the wall on the other side of the room. The flying carpet shook the front part of it up and down. John, Bill, and I got at three fourths of the way across the room. The flying carpet took off! I said, "I hope the flying carpet goes fast. Do you think it will, Bill?" Bill said "Yes." The flying carpet went across the room fast. When the speed showed up it said the flying carpet went 179 miles per hour. That's fast, I said.

Lastly, that's how my adventure with the flying carpet went. I hoped you liked my story about the flying carpet. Thank you for reading my story.

Score Point: 4

This response reflects proficiency in narrative writing skills. The writing is adequately organized and developed. Although there are very few writing errors, the response is choppy due to the lack of syntactic variety. Further facility in the use of language would be required for a higher score.
